

Proposed Replacement Drawings

In the Office Action, the drawings were objected to by the Draftsperson for reference characters not being clear and legible, and for having text which did not meet the minimum height requirements.

Proposed replacement Figs. are included on the Proposed Replacement Drawing sheets attached with this Amendment and Response. No new matter has been added in these proposed replacement Figs. Several of the Figs. as originally submitted have been marked with references to new Figs. which show a closer view of the originally submitted material. These new Figs. show the earlier drawings clearly and legibly, with text that is in compliance with minimum character height guidelines.
